

Gifted and Talented Programming:

Parent representatives expressed support for expanded Gifted and Talented programming in the District. The Committee reviewed National Association for Gifted Children programming standards and discussed current programming details, including strengths and underserved areas and areas for GT curriculum growth.

Models for enhanced delivery were discussed including the possible addition of a part-time Gifted and Talented coordinator position. The discussion stressed that if any changes to staffing were to take place, they would be part of the budget building process for the 2012-13 school year that begins in early 2012.

Summer Review and Forecasting 2011/12 in Curriculum and Instruction:

The Committee reviewed upcoming assessment schedules for math and reading as well as professional development programming that includes aligning curriculum to the Common Core State Standards in Reading, Language Arts and Math.
